

Careers in Caring!

Did you know that Americans are now expected to live an average of 79 years?

As our aging population continues to grow, Home Companions are becoming essential careers.

Helping older adults in their homes is a rewarding and flexible career-and caregivers are in high demand in Southwest Florida.

YOU can become an in-home companion!

Goodwill wants to help you become an effective caregiver.

In partnership with *NEVCO Health Care Education*, Goodwill is offering six training modules that will help you become part of this needed profession.

Modules are \$20 processing fee upon completion of this program!

Modules include:

- Client Relations: Effective Communication Skills
- Cultural Diversity and Healthcare Competency
- Interactive Skills: Cognitively Impaired Clients
- Household Administration: Strategy and Safety
- Caregiver Proficiency: Alzheimer's Disease
- OSHA Standards: Blood-Borne Pathogens

Most modules take less than an hour to complete.

A certification exam will allow you to earn a certificate of completion in each area. You can complete at our Tice location or at the Job-Link near you on your own schedule.

For more information on the program contact Dorothy Browning, Goodwill Community Education Coordinator, at (239) 995-2106 x 2304 or www.goodwillswfl.org/trainingcertification.
