

What is Vocational Rehabilitation?

Vocational Rehabilitation (VR) is a federal-state program that works with people who have physical or mental disabilities to prepare for, gain or retain employment. VR is committed to helping people with disabilities find meaningful careers.

What is Financial Participation?

VR will look at the income of eligible individuals to determine if they will be required to share in the cost of vocational rehabilitation services. Some individuals or services may be exempt, and a person will not be required to pay toward the cost of these services.

What is Order of Selection?

You may be eligible for VR services if you have a goal to become employed and meet the following criteria:

- Your physical or mental disability interferes with your ability to become employed.
- VR's help is necessary for you to prepare for, gain or retain employment.

If you receive Social Security Disability Insurance (SSDI) or Supplemental Security Income (SSI) for your disability, you are presumed eligible for VR services if you intend to become employed.

General Information

VR Programs

Deaf/Hard of Hearing Services

Deaf and Hard of Hearing Services ensure that VR services are provided to eligible individuals with all types of hearing loss. Necessary assistance and skills training for both employee and employer can help persons who are deaf or hard of hearing secure and retain employment.

Mental Health Programs

VR coordinates services with available mental health centers, programs, and service providers to assist individuals with mental or emotional disabilities in becoming employed.

Ticket to Work

Ticket to Work is a Social Security Administration (SSA) program available to Floridians. For those who qualify for social security benefits, tickets will be issued and may be taken to Employment Network (EN) participants, such as VR. These participants offer access to employment and rehabilitation services necessary to help a person secure and retain employment. This program is voluntary.

Supported Employment

Supported Employment serves people with the most significant disabilities who have not been successful in competitive employment. The program helps individuals become employed in their community by using services such as job coaching and follow-up to promote employment stability.

School to Work Transition Program

The VR School to Work Transition Program involves a number of activities to help students with disabilities prepare and plan for employment success after high school.

An equal opportunity employer/program. It is against the law for the Division of Vocational Rehabilitation (VR) of the Florida Department of Education, as a recipient of Federal financial assistance, to discriminate against any individual in the United States on the basis of race, color, religion, sex, national origin, age, disability, political affiliation or belief.

The application process used by VR to determine eligibility for services, any subsequent services, and the entire VR process are subject to these non-discrimination requirements. Auxiliary aids and services are available upon request to individuals with disabilities. All voice telephone numbers on this document may be reached by persons using TTY/TDD equipment or via the Florida Relay Service at 711.

The Department of Education Division of Vocational Rehabilitation is a proud partner in Florida's Next Generation Strategic Plan for education.
