Reporting Sales

Florida dealers should report the sales of eligible items sold during the sales tax holiday period as exempt sales on their sales tax returns.

Items Normally Sold as a Unit

Items normally sold as a unit must continue to be sold in that manner; these items cannot be separately priced and sold as individual items in order to qualify for the sales tax exemption.

Sets Having Exempt and Taxable Items

When tax-exempt items are normally sold together with taxable merchandise as a set or single unit, the sales price of the set or unit is subject to sales tax.

Buy One, Get One Free or for a Reduced Price

The total price of items advertised as "buy one, get one free," or "buy one, get one for a reduced price," cannot be averaged for both items to qualify for the exemption.

Gift Cards

The sale of a gift card is not taxable. A gift card does not reduce the sales price of an item. Eligible items purchased during the sales tax holiday period using a gift card qualify for the exemption, regardless of when the gift card was purchased. Eligible items purchased after the sales tax holiday period using a gift card are taxable, even if the gift card was purchased during the sales tax holiday period.

Remote Sales

Eligible items purchased through a marketplace provider or from a remote seller are exempt when the order is accepted by the marketplace provider or remote seller during the sales tax holiday period for immediate shipment, even if delivery is made after the sales tax holiday period.

Coupons, Discounts, and Rebates

The sales price of an item includes all consideration received by the retailer for that item. It is not limited to the amount paid by a customer. A coupon, discount or rebate offered by the retail seller reduces the sales price of an item because it reduces the total amount received by the retail seller for such an item. Because a retailer's coupon, discount or rebate reduces the sales price of an item, such discounts may be used to determine whether an item qualifies for the exemption.

However, a retailer is reimbursed for the amount of any discount created by a manufacturer's coupon, discount or rebate, and the amount of the reimbursement is included in the total sales price of the item. Because the sales price is not actually reduced by a manufacturer's coupon, discount or rebate, such discounts cannot be used to determine if an item qualifies for the exemption.

Returns

When a customer returns an eligible item purchased during the sales tax holiday period and requests a refund or credit of tax:

- The customer must produce a receipt or invoice showing tax was charged and paid on the original purchase of the item, or
- The retailer must have sufficient documentation to show tax was paid on the original purchase of the item.

Exchanging a Purchase After the Sales Tax Holiday Period

When a customer purchases an eligible item during the sales tax holiday period, then later exchanges the item for the same item (e.g., different size or different color), no tax will be due even if the exchange is made after the sales tax holiday period.

When a customer purchases an eligible item during the sales tax holiday period, then later returns the item and receives credit toward the purchase of an item that did not qualify for the exemption, the new item purchased is subject to sales tax.

Rain Checks

Eligible items purchased during the sales tax holiday period using a rain check qualify for the exemption regardless of when the rain check was issued. However, issuance of a rain check during the sales tax holiday period will not allow for an eligible item to be exempt if the item is purchased after the sales tax holiday period.

Layaway Sales

A layaway sale is a transaction in which merchandise is set aside for future delivery to a customer who makes a deposit, agrees to pay the balance of the purchase price over a period of time and receives the merchandise at the end of the payment period.

Eligible items sold as layaway sales qualify for the exemption when the customer:

- Accepts delivery of the merchandise during the sales tax holiday period, or
- Puts an eligible item on layaway, even if final payment is made after the sales tax holiday period.

Service Warranties

The taxation of any charges for a service warranty contract depends on the taxability of the product being sold. If the retail sale of an item is exempt from tax, the charge for a service warranty sold with the item is exempt.

Shipping and Handling

When separately stated shipping charges are part of the sales price and both taxable and exempt items are listed on a sales invoice or receipt, the shipping charges must be proportionately allocated to the charge for each item to determine the total sales price of the item. The charge for each item is divided by the total charge of all the items ordered to obtain the percentage of charge that each item bears to the total order. The amount of the shipping charge applicable to each item is calculated by multiplying the total shipping charge by the percentage of cost for each item. If the item sold is exempt, the associated shipping charge is also exempt.

Panama City and Panama City Beach Dealers

Only: Panama City and Panama City Beach impose a 1% merchant's license fee or tax on retailers. The merchant's license fee is included in the sales price of each item. When the fee is separately stated, and both taxable and exempt items are listed on a sales invoice or receipt, the merchant's license fee must be allocated to the charge for each item on the invoice. If the item is exempt, the associated merchant's license fee is exempt.

Qualified Businesses May Choose Not to Participate in the Back-to-School Sales Tax Holiday

Qualified businesses may choose not to participate in the sales tax holiday when less than five percent (5%) of their gross sales of tangible personal property during calendar year 2021 were sales of items that would be exempt during the sales tax holiday period. Businesses with multiple locations must include the gross sales of all their Florida locations in this calculation. For businesses that were not in operation during the 2021 calendar year, this option is available when less than five percent (5%) of the business's inventory of items for sale are items that would be tax exempt during the sales tax holiday period.

Qualifying businesses choosing not to participate in the sales tax holiday **must send a written notice to the Department by July 18, 2022**. The notice must be on business letterhead and state that the business meets the qualifications stated above and has chosen not to participate in the sales tax holiday. The notice must be signed by an individual authorized to sign on behalf of the business. Businesses with multiple locations may send a single notice stating that all their Florida locations will not participate in the sales tax holiday.
